**WELDING BLANKET**

**Part No. 21083**

A 6 ft. x 6 ft. lightweight, soft and flexible welding blanket for draping over equipment or floor surfaces in welding areas, or as a vertical shield to protect from the spray of sparks, spatter and slag. Our fire and heat resistant welding blankets are made with a carbon fiber fabric that was developed from NASA technologies. The carbon fibers can withstand temperatures of 1800° F from contact with hot metal, weld spatter or the welding flame for short durations but should not be exposed to temperatures of 200° F for extended periods as the carbon fibers will break down. The blankets are easy to clean; just shake, vacuum or use compressed air to blow metal particles out.

**WEATHER-SEAL WRAP**

Our Weather-Seal Wrap is a clear, plastic film that has an adhesive on one side that is strong enough to hold the wrap in place on almost any surface and seal out contaminants, yet it can be easily removed without pulling off paint, leaving adhesive residue or damaging the surface. With it you can seal out rain, snow, wind and dirt when windshields or door glass has been broken. In addition, Weather-Seal Wrap can be used to protect vehicle carpet and upholstery from soiling and spills. Apply it to paint booth walls and prevent over spray from discoloring white walls. Weather-Seal Wrap has 3 mils of plastic protection to preserve finishes that it covers so it can also be used as a temporary, protective coating against light abrasions.

**Plastic Renew® Automotive Plastic & Rubber Restoring Kit**

**20699**

Plastic Renew is a complete plastic and rubber restoring kit. Fading and discoloring are removed by using the steel wool supplied in the kit. Plastic Renew is applied with the applicator towel. Two to three coats of Plastic Renew brings out a brilliant shine that will last for years. This product will not come off with normal washing. One kit completely shines the interior (trim, dash, consoles & door panels) and exterior (mirrors, bumpers & running boards) of most full-sized vehicles.

**Not for use on tires.**

UNIT PACKAGE: 1 Kit

**MISCELLANEOUS ITEMS**

**Plastic And Headlight Resurfacer/Protector**

**20791**

**Don't compromise when it comes to safety.** Yellowed or cloudy headlights impair night vision. Use of this product on yellowed or discolored headlights will significantly increase the clarity of the lens giving the driver the ability to see better at night. 3 easy steps and about 15 minutes is all it takes to restore most headlights to a like-new appearance that lasts. In addition, it may be used safely on most types of plastics, windshields and more.

Kit Includes: Complete instructions, Pretreatment, Water Base Pretreatment, Oxidation Remover, Shine Restorer/Protector (Increases shine, seals & protects), gloves, sanding sheets, and lint free paper towels.

UNIT PACKAGE: 1 Kit
